

Nursery Week Beginning: 04/05/2020

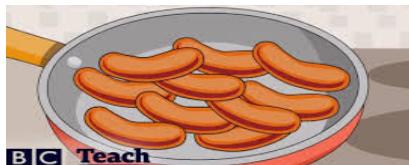

We hope you are all happy and healthy. There are suggestions below to direct you towards skills you can develop at home with your child.

Maths and Numeracy

Ten Fat Sausages.

Can you learn the rhyme? You can find it using the BBC schools Nursery rhymes website.

Can you make a frying pan and ten fat sausages to help you learn the rhyme? You can make them using whatever materials and resources you have at home.

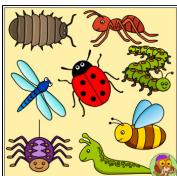

Science and Technology

Exploring the world around us.

Put a white sheet or a sheet of paper under a bush, plant or tree. Give the bush, plant or tree a gentle shake and see what falls off the leaves. Can you identify what the creatures are?

Maybe you could draw the creature. Learn the name and a little about it.

Expressive Arts

Can you make a junk model musical instrument?

Think about what you will use. Will it be something you bang, shake or strum.

When you have made your instrument can you play along as you sing a farm song or your favourite song? Don't forget to send a video or photo of your instrument or you playing it.

Language, Literacy and Communication

LLC

Can you remember what foods are healthy and good for us? Think about what our bodies need to be healthy. Can you write a list for what you would need for a healthy meal?

Welsh

You can practise the phrase you learnt last week – Dw i'n hoffi.... I like.... When you make your list of foods

Phonics: SATPIN

As we have come to the end of our single phonics sounds, we would like to use the next couple of weeks to reinforce these and to begin using them to word build. We will be looking at SATPIN first. How many CVC (3 letter) words, consonant-vowel-consonant, can you make using these sounds? Can you practice writing the sounds and words that you have made? You can use any resources clean or messy!

Can you make words that rhyme? How many words can you make that rhyme?

Health and Wellbeing

Can you design and create a healthy meal or snack?

You could work with your grown up and make one using food in your home or you can cut out pictures and be creative and crafty.

When you have made your meal can you write about or talk about what you have chosen and why?

You could use the list of foods in your writing activity to help you. We look forward to seeing your ideas.

Humanities

Where in the World does your food come from?

Have a look at the labels on the packaging of the food, for example – bananas or strawberries.

Where is it from?

What country does it grow in?

Can you find one food in your list or in your healthy meal that is from Great Britain and can you find one from another country.

Can you name the food?

Draw a picture of the food.

Tell me something about the country that it comes from.
