

Nursery Week Beginning: 11/05/2020

We hope you are all happy and healthy. There are suggestions below to direct you towards skills you can develop at home with your child.

Maths and Numeracy

Numicon (YOU WILL ONLY NEED UP TO NUMICON WITH 5 HOLES)

Cut out and make the Numicon shapes. You might want to make more than one copy and strengthen them too, maybe using card. Play games to recognise the shapes and identify the 'number' of the numicon. You could – Put them in a feely bag and describe the shape, try to identify the numicon just by feeling it. You could sort the shapes in order of size, as the picture below.

Language, Literacy and Communication

LLC

Can you create a poem about RAINBOWS? Using the template, we have given you, can you use lots of describing words – WOW words, to write your super sentences to complete your poem. Take a video of your reading your poem or send us a picture of your finished poem. Your grown up could help you by completing the writing but you can tell them your sentence.

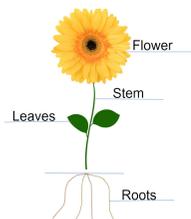

Phonics: SATPIN We have added CKE

We would like to continue to reinforce the single sound and to continue using them to word build. We have added three new letters this week. How many new CVC (3 letter) words, consonant-vowel-consonant, can you make using these sounds? Can you practice writing the sounds and words that you have made? You can use any resources clean or messy! Can you make words that rhyme? How many words can you make that rhyme?

Science and Technology

Have a look at the information pages about the plant. Can you learn the different names for the parts of the flower and what job each one has? Can you draw a flower, or you can use one that you have already drawn, and then label the parts of the flower? Your grown up could make the labels and you can put them in the correct place or you can try and write the words yourself and then label your flower.

Expressive Arts

Can you make a rainbow?
You can be as creative as you like. It could be 2D or 3D. You can use craft materials and make a collage, paint, crayons, Lego, blocks, whatever you have at home that you think will make a really wonderful rainbow. We can't wait to see your masterpieces. You could even display them in your home once you have finished. Please send us a picture of your finished work we would love to see them ALL!!!!

Health and Wellbeing

Rainbows make us smile and we feel happy when we see them. What makes you smile and feel happy. Draw a picture, take a photo, make something, send a video of you telling us about what makes you happy.

Humanities

The story goes that at the end of a rainbow you can find treasure. Can you make a treasure hunt for your family? What will the treasure be at the end?
Can you create a map for them to follow? Will you have an X to mark the spot or a symbol that you choose?
Send us a video or photos of your treasure hunt we would love to see your maps and what treasure was at the end. HAPPY TREASURE HUNTING!!!
