

## Nursery Week Beginning: 01/06/2020

We hope you are all happy and healthy. There are suggestions below to direct you towards skills you can develop at home with your child.

### Maths and Numeracy

We would like you to make a chart to record how many birds that you see in a week. You can watch them in your garden at home or when you go for walk around your local area. You can make a chart that shows every day of the week and count how many birds you see each day. Which day did you see more birds? Which day did you see the least? How many birds did you see in a whole week?

Bird Count		
	Sparrows	Robins
Friday	I	
Thursday		
Wednesday		I
Tuesday		
Monday		I

### Language, Literacy and Communication

#### LLC

Can you find out about a garden bird? Can research and find out about what it eats, where it lives, what colour it is? You can make a poster, make a video, write and draw a picture, paint a picture and make labels, however you want to tell us about it and use your grown up to help you to write your super sentences or words if you need to.

#### **Phonics: SATPIN CKEHR We have added MD**

We would like to continue to reinforce the single sound and to continue using them to word build. We have added three new letters this week. How many new CVC (3 letter) words, consonant-vowel-consonant, can you make using these sounds? Can you practice writing the sounds and words that you have made? You can use any resources clean or messy! Can you make words that rhyme? How many words can you make that rhyme?

### Science and Technology

Can you make a bird feeder to put in your garden? Think about what you could make it out of. You can use recycled materials, craft materials, pots, cups. Think about what you will need to have on the bird feeder to help the birds stay and eat the food -a stand to hold onto maybe? Where will you put it? Do you need something to hang your feeder or will it stand in the garden? (The pictures are just suggestions)

### Expressive Arts

Can you make a junk model or a 2D picture of a bird? You can use a range of materials and resources that you have around your home or in the garden. You could use nature to create your picture, using leaves twigs and grass for example or you can use craft materials. We look forward to seeing your creations.

### Health and Wellbeing

There are some lovely fitness and well-being activities for you to try this week.

Andy's wild workouts. Move like a hummingbird -

<https://youtu.be/16XQZf06Uws>

You use YouTube to listen to bird song music. Can you sit quietly, close your eyes and listen to the bird song. Can you recognise any birds?

Cosmic Kids yoga

<https://youtu.be/LIBz0ldOFiQ>

Send us a photo of you trying out the different activities and tell us which one you enjoyed.

### Humanities

We would like you to complete a check list of birds that can be spotted in and around our gardens or when you go for a walk.

Have a look at the sheet and see if you can identify the birds. Have a look at the colours and any special markings they may have.

You can either go for a walk or bird watch in your garden and complete the check list. How many birds can you spot?
