

## Nursery Week Beginning: 20/04/2020

We hope you are all happy and healthy. There are suggestions below to direct you towards skills you can develop at home with your child.

### Maths and Numeracy

Can you create a two-colour pattern?

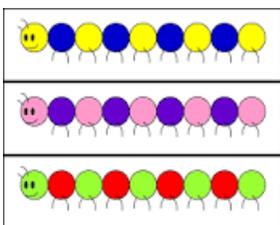

\*Draw a caterpillar with 8 circle parts to its body.

\*Add a head

\*Add 10 legs.

\*Now can you use 2 colours to create a colour pattern for your caterpillar?

Can you make a friend for your caterpillar and choose 2 different colours?

### Language, Literacy and Communication

Welsh Beth wyt ti'n hoffi? What do you like?

Dw i'n hoffi.... I Like.....

Can you practise asking the question to your grown-ups or someone in your family? Answer by saying the phrase Dw i'n hoffi.... And choose something you like. It can be anything at all, a colour, food, a toy, whatever you want. Can you draw a picture and write a super sentence to show what you like? Upload it to See saw to show us what you have done too or record a video for See saw.

Phonics Letters for this week are - **x** and **qu**

Can you practise your phonic sounds? You can log into You tube and find the songs there. Practise the letter formations using lots of different items – shaving foam, chalk, pens, pencils, water on a dry surface. Remember to link to our handwriting policy.

### Science and Technology

#### Bubble prints

Add washing up liquid to a cup of poster paint. Give your child a straw and ask them to blow into the paint. As the bubbles appear print them onto some paper.

What images can you make from the bubbles you have made?

Use a pen to turn the bubbles into something – ie a fish, a dog, a caterpillar?

#### Making Bubbles

Can you mix some washing up liquid with water to create bubbles? Then find something around the home that you can use to make a bubble wand with, something in the kitchen, pipe cleaners. Can you blow bubbles? How many can you make? Can you make BIG bubbles? Can you make small bubbles?

### Expressive Arts

Can you make a model of a farm animal? Using junk modelling/clay/craft materials or whatever you have at home.

Can you choose an animal that lives on the farm?

Think about the features of the animal, it's colour, does it have a tail, is it tall or short?

Can you make a model and upload a photo or a video of your creation to See saw for us to see?

Have fun and enjoy using a range of materials and tools to create your model.

### Health and Wellbeing

Take at least 10 minutes a day to practice one of the following:

- Cosmic kids yoga/Mindfulness – You Tube.
- Go noodle activities on you Tube.
- Complete the Joe Wicks workout on YouTube it is on every day at 9am.

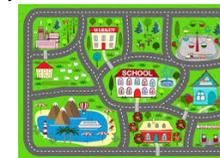

Watch Come outside -A letter episode on YouTube. Keeping in touch with our friends and family is important. It makes us happy to receive a letter in the post. Can you write a letter to someone in your family to make them smile?

### Humanities

Can you draw/create a map of a farm. It can be 2D or 3D. You can draw/build what your ideal farm would look like.

Think about what animals would live on the farm. Where would they live? In a pen, a barn or a field? Can you create their house?

Think about how you would create your map.

Can you write labels or signs to show what animals live in which part?
