

Nursery Week Beginning: 29/06/2020

We hope you are all happy and healthy. There are suggestions below to direct you towards skills you can develop at home with your child.

Maths and Numeracy

1 2 3 4 5

Can you make sets of objects up to 5? Can you count how many objects are in each set? Once you have counted how many objects there are can you record this number? You can record this in different ways using chalk, sand, foam, mud, magic water painting – use whatever resources you already have at home. Using the feely numbers you made last week can you match these to the number of objects in each set too?

Number Blocks

As part of our maths we would like you re visit any of the episodes of number blocks up to number 7.

Language, Literacy and Communication

LLC

Beth sy yn y bocs? (What is in the box?)

Using a box put a range of different toys in there. Can you ask the question “Beth sy yn y bocs?” Put your hand into the box and before you pull the toy out, can you use your hands to feel it and have a guess what it is! Pull the toy out and say what it is “dyma doli, dyma tedi, dyma tren” etc... Was your guess correct?

Phonics: SATPIN CKEHRMD GOULFB. We have added J and Z

We would like to continue to reinforce the single sound and to continue using them to word build. We have added new letters this week. How many new CVC (3 letter) words, consonant-vowel-consonant, can you make using these sounds?

Can you practice writing the sounds and words that you have made? You can use any resources clean or messy! Can you make words that rhyme? How many words can you make that rhyme?

Science and Technology

On a sunny day take a piece of chalk and draw around a member of your family's shadow? Can they draw around your shadow? What different shadow shapes can you make with your body? Can you stand, crouch, curl in a ball, and lie down as a star? Draw around as many of these different shapes as you can. Remember shadows don't have any features, so you won't need to add eyes, mouth, nose etc...

Expressive Arts

Can you write your name on a piece of paper or card and then decorate it interestingly using any natural materials you find on a walk, in your garden or craft materials that you already have at home? Be as imaginative or creative as you want to be. We can't wait to see what these look like!

Health and Wellbeing

Target Game

We asked you to make a target game and we have enjoyed seeing your pictures of these.

This week we would like you to get lots of use out of these by playing them with your family. Remember to have lots of fun and share your photos and videos with us.

Humanities

Can you find three photos of yourself, one of you as a baby, one when you were a toddler and one of you now. Can you create a timeline showing how you have changed from a baby to now?

When you have your photos in a timeline, can you talk about them? What do you notice about the changes?

How are they different and why do you think they are different?

Have you changed? Please show us your timeline when you have finished.
